# Equipping *our* Counsellors

This 2 day workshop is a unique opportunity for a personal development top-up for counsellors and carers, under the experienced tuition of David Riddell. David is a well known and respected counsellor, author and speaker, both in New Zealand and overseas. He has been operating a successful practise for more than 30 years, and during that time, has encountered every imaginable dilemma a human being can find themselves in! He has a heart to see people liberated and living successful lives, and has accumulated much wisdom to initiate this outcome in the thousands of lives he has touched. He also has a desire to equip, to challenge, to offer tools and insights to others working in the discipline (or planning to) - offering answers to the 'too hard' questions/topics, restoring courage, guarding enthusiasm, checking self care and helping to maintain perspective in the counsellors office. He will 'scratch where you are itching'! You will leave feeling more confident, more fully equipped, more self aware, and more enthused for the challenges ahead! If you are working as a counsellor or carer, this valuable workshop will be the highlight of your counselling year.
