

A LIVING WISDOM 3 day Workshop

David J. Riddell,

Author : Speaker : Counsellor

presents:

Achieving My Dreams

3 days of personal coaching to 'make it happen'

"What should I be doing with my life?" "How come I never seem to get ahead?" "I'll get that when I win Lotto!" "I've maxed out the credit card again!" "I still haven't found my real talent...!" Do these statements sound familiar??

In this workshop David explores the many & varied reasons behind our financial and career difficulties - exposing a thinking problem that has more to do with fear or a lack of initiative than a lack of ability. Opportunity for enterprise is all around us; so what stops us from seeing it? This Workshop is a challenge to our most deeply held beliefs about money, business success, and our own ability to create and handle wealth responsibly. Self awareness, goal setting skills and a careful analysis of why some succeed and some fail assists us to map out a path to prosperity with a new confidence. And if you want inspiration and insight to re-invigorate your current business, you will find it here!

"Find a job you can love, and you'll never work another day.." Mark Twain.
